

ANSWER SHEET EVALUATION (STRENGTHS & GAPS)

Student Name: Anshul

Marks: 42/50

Percentage: 83%

Grade: A2

Strong Areas

1. Chemical reactions for preparation of phenol from various sources:
2. Explanation of hydroboration-oxidation reaction:
3. Reagents used in chemical reactions:

Needs Improvement

1. Victor Meyer test explanation

Actionable Feedback

1. Provide a clearer explanation for the Victor Meyer test in future
~~exams~~ ensure all chemical equations are complete and accurately described.

Overall Performance

The student demonstrated a strong understanding of the chemical reactions and principles involved in the preparation of phenol and related compounds, although some areas could benefit from further detail and clarity.
